

How to fill in the Travel Vaccination form

Go to our surgery website

www.larwoodhealthpartnership.co.uk

Click onto the blue box 'TRAVEL ROOM'

Click onto 'Submit a Travel Form' under "Travel
Assessment"

Complete all the information – we must have exact
travel date and exact destinations

Sign, tick* and Submit the form

(*you must tick to confirm that the information provided
is accurate and that your enquiry is not urgent as it may
take up to 2 working days before you receive a reply)

A member of the reception team will then contact
you to arrange a convenient appointment

If you do not have access to our website please ask re-
ception for a hardcopy

Information for patients

Going on Holiday?

To assist us to give you appropriate and timely treatment and advice for Travel Vaccinations please read the below

Holiday Vaccinations can be given well in advance of date of travel but need to be given as a minimum 2 weeks prior to travel date.

You need to be arranging your vaccinations ideally at minimum 6 weeks prior to travel

Any requests made at 4 weeks or less prior to travel date cannot be guaranteed an appointment prior to travel date depending on demand

Any vaccinations given less than 2 week prior to travel date are not guaranteed to be active

If we can not meet these time scales we advise you to attend a travel clinic in Doncaster, Sheffield or Nottingham and these can easily be found on the internet

Most travel vaccinations are provided at a cost (please ask for price or visit the [See Travel Vaccination Charges](#) in our travel room on our website)

Checking what vaccinations you need for your holiday please follow the below

Translations of information given on web site regarding vaccinations needed:-

1. Confirm primary courses and boosters are up to date as recommended for life in Britain – If you are up to date with your childhood and adult vaccinations this is already covered (such as tetanus)
2. Only at high risk – this means if you are traveling off the beaten track, not on an arranged holiday or hotel, going to work/ live with the population
3. Yellow fever vaccination certificate required from travellers aged 1 year or over arriving from countries with risk of yellow fever transmission – If you are travelling from this country you do not need this.

You only need Yellow fever if the information states - Yellow fever vaccination certificate required for all travellers aged 9 months or over.
